

Linda Hamilton –

Linda started escrow in 1976 – WAY too many years ago! Typewriters, carbon paper, written receipts for deposits, calculators and writing with a pencil for “debits and credits” showing all the taxes, pro-rations and fees. Very different currently but escrow is still “escrow”!

Linda and her family owned an independent company, Valley View Escrow, in the 80’s and has worked for independent escrows, title companies, brokerage escrow and a bank – all for escrow! Started as a “secretary”, became an escrow officer a few years later and then a manager in the early 1990’s. Became very active with CEA, earned the titles of CEO, CSEO and CEI and was a speaker for the CEA conferences for several years.

In 2016 retired due to health concerns but in 2020 came back as an escrow assistant - still loves escrow and will help in any way she can. Escrow must be in her family’s blood as her mom became an escrow officer in the 60’s – and now Linda’s sister, daughter and grandkids are in escrow as well!

Helping in escrow is a wonderful purpose in Linda’s life and will continue until . . . who knows???
